

Find Middle Name

An effective and fun strategy is to play “Find Name Game” starting out with 4 different names (at this stage, each should start with the same letter or letters as your child’s middle name). You write the names properly using upper and lower case letters on different pieces of paper. Start out showing your child’s name, then mix the names up as your child closes his or her eyes, and lastly have your child open their eyes play the “Find Name Game”.
